

QTD1 LONG RANGE RIFLE SYSTEM

A NEW LONG RANGE RIFLE FEATURING OUR PATENT PENDING QUICK TAKE-DOWN SYSTEM

The APRS QTD1 Long Range Rifle is an Australian designed and manufactured precision firearm with our unique, patent pending Quick Take-down System.

This system enables the user to remove or replace the barrel in seconds without compromising accuracy or precision.

The Quick Take-down System also allows for a variety of calibres to be easily interchanged.

Every component of the APRS QTD1 Long Range Rifle has been engineered to achieve maximum ballistic performance, accuracy, and repeatability.

FORCE ORDNANCE

Supplied to military, government and law enforcement by Force Ordnance, a division of Lightforce Group.
11 Manton Street, Hindmarsh, South Australia.

QTD1 LONG RANGE RIFLE SYSTEM

The QTD1 has been designed in collaboration with experienced ADF snipers and civilian precision shooting champions.

Every rifle is paired with leading accessories like Nightforce optics to ensure uniform ruggedness and reliability across the entire weapon system.
